CANCER INSURANCE

Fidelity Security Life Insurance Company,
Kansas City, MO

Due to the rising frequency of cancer and the extraordinary costs cancer treatment requires, we have made available an affordable way for employees and their families to help make ends meet when this tragedy strikes. Our Cancer Insurance Plans are designed to provide benefits in the event an employee or a (optional) family member are diagnosed with cancer.

- Three plans to choose from with premiums starting at \$7.26 a month for the employee, and \$10.38 for the whole family.
- Preventive maintenance benefits for mammogram and cervical cancer screening even without diagnosis of cancer and even if an employees health insurance pays 100% for those procedures.
- A First Diagnosis Benefit pays a one-time \$1,500.00 benefit for the first diagnosis of any cancer (except skin cancer).

Employees, their spouse and unmarried dependent children (under age 25), are eligible to enroll. All benefits from this plan are paid directly to the insured. Acceptance is guaranteed to each family member who hasn't been medically treated or advised of cancer within 10 years. **Age is not a factor!** Limitations and exclusions apply.

Please see our brochures for more details.

All Cancer Insurance Plans May Be Continued Even If An Employee Leaves The School District.
